Certificate no. **SAMPLE**
Test date **10 November 2026**
Tested by **compucall.co.nz**

This certificate records the result of Compucall's automated test of what acme.example.com showed publicly on the test date: HTTPS and its certificate, security headers, cookies, web software, email security (SPF, DMARC), DNS and exposed files. It is not a guarantee that the website cannot be attacked, and it does not cover changes made after the test. Grades: A = no problems and at most 3 warnings; B = no problems, more warnings; C = 1 or 2 problems; F = 3 or more problems, or no HTTPS.
